

# Floating Finn Stirrups

The new Merivaara Floating Finn lithotomy stirrups are designed for effortless and optimal lithotomy positioning. They are available in two sizes: Floating Finn Plus meets the needs of bariatric care – Floating Finn supports everyday adult care.

- Non-Velcro silicone straps support improved infection control.
- Flexible boot accommodates larger patient calves.
- Pressure-relieving padding reduces the risk of pressure injuries and compartment syndrome.
- Clearly visible scale simplifies symmetrical alignment.
