

Floating Finn Stirrups

The new Merivaara Floating Finn lithotomy stirrups are designed for effortless and optimal lithotomy positioning. They are available in two sizes: Floating Finn for adults with a safe working load (SWL) of 180 kg and Floating Finn Plus for bariatric patients with a SWL of 250 kg.

- Non-Velcro silicone straps support improved infection control.
- Flexible boot accommodates larger patient calves.
- Pressure-relieving padding reduces the risk of pressure injuries and compartment syndrome.
- Clearly visible scale simplifies symmetrical alignment.
